**SPEAKER: Rhett Halsey**

Rhett Halsey has been a real estate investor for over 15 years. Through experience, he discovered that effective marketing was always a problem whether he was trying to rent or sell one of his properties. Expensive newspaper ads always cut into profits, bandit signs returned some results but were a problem for some because they are not always legal. Very quickly he realized the internet was one of the most effective tools to market and sell real estate. Seeing the need to help other investors and business owners, Rhett became an internet marketing “strategist” and website consultant. In the process, he has developed some of the most creative and unique approaches to cost effective marketing online. His mission is to help you improve your results and tip the cashflow scale in your favor.
