

The Assistant That Pays Their Own Salary

Most investors know how to buy and sell, but find that real estate is taking over their free time and running them ragged. Alan Brymer is the only speaker whose sole focus is to show real estate investors how to cut the number of hours they work by **50-80%**, while doing **more deals** with less hassle. The key is having systems, and having someone in place to take care of the myriads of time-consuming phone calls and busy work for you.

Alan teaches a system of strategies designed to help any investor, whether new or experienced, to hire and train an assistant to run their errands, make their calls, run their marketing campaigns, find them deals, sell their houses, and more. The techniques Alan covers will...

- Revolutionize the way you spend your time
- Let you work **HALF** as much – or get twice as much done – with less effort
- Cut your working hours down by 50-80% each week, and Allow you to do **ONLY** the work that YOU want to or can do – so you can have a life again!

WHO: Women Who Love Real Estate !!!

WHEN: 6:30pm-9:30pm Wed Mar. 19th

WHERE: 9 Truman St. Irvine CA 92620

South Coast Cultural Center, 2nd floor

SPEAKER: Alan Brymer

Alan Brymer is the Founder and President of the Utah Valley Real Estate Investors Association. Alan has been a full-time investor since his 1st property at the age of 22. Like many, he attended seminars and bought courses but found that while the *techniques* of real estate are frequently taught, there were no courses that showed how to *streamline and run a business* in the level of detail and freedom that he was searching for. He began to develop systems for his own real estate business, which has allowed him to do more deals in less time each month. He has incorporated these into his consulting and is now presenting them as complete systems modules. Today, serious real estate investors can, for the first time, take their investing to the next level with the world's first system designed to streamline the real estate investing business and increase profitability.
